WAYS TO GET THE BEST FROM BROADBAND

Broadband brings a host of extra value options right to your desktop. Improve productivity and security with these applications

number one

1 YOU WANT: Flexibility to pick up your emails anywhere
YOU NEED: BT Business Email
 In today's fast-paced business world you need 24/7 access to email wherever you are, whether it's via a PDA, BlackBerry, laptop or desktop PC. Enter BT Business Email, BT's hosted email solution using Microsoft technology. It gives you access to emails, calendars and enterprise-wide address books – which can be shared with staff, suppliers and customers – plus a hefty 200Mb of storage. Available from £7.50 (ex VAT) per month¹.

number two

2 YOU WANT: A central space to share information
YOU NEED: BT Workspace
 Access all your crucial information in one secure location with BT Workspace. It gives you a simple, centralised and private web page for storing, managing and sharing crucial business information with colleagues, customers and suppliers. The software is easy to use and all your tasks, contacts, calendars, documents and meetings are automatically backed up. Each user enjoys a whopping 100Mb of storage space². From £15 (ex VAT) per month, which includes a FREE 30-day trial⁹.

number three

3 YOU WANT: To create a professional web presence
YOU NEED: Internet Business Pack
 The internet is playing an increasingly pivotal role in the success of all businesses, and to compete effectively you need a slick online presence. Internet Business Pack gives you the tools to build a professional, hosted website easily and quickly – from 17p per day. You can upload documents, video, audio or animation and you have complete control of all site content. Plus over 200 templates and a library of images are at your disposal. Not to mention the 110 individual mailbox addresses and 120Mb of storage space⁵. You pay £5 (ex VAT) per month.

number five

5 YOU WANT: Fast and easy fault resolution
YOU NEED: BT IT Support Manager
 Every business needs to know that an IT fault can be resolved rapidly, without any hassle or great expense. BT IT Support Manager is a desktop support service that includes 'always-on' self-diagnosis software and, for trickier problems, remote diagnostics and repairs over a secure broadband connection. There's also the option of professional assistance onsite⁶. You can also use the service for fast and friendly help with PC set-up, application installations, upgrades and much more. Available from £10 (ex VAT) per PC per month⁷.

number four

4 YOU WANT: Safely stored data
YOU NEED: BT PC Backup
 Fire, flooding, theft, accidents and attacks can bring your business to its knees, unless you backup your valuable business data. With BT PC Backup all new or modified files are compressed, encrypted and backed up in real time to duplicated data centres, which you can access and restore from anywhere in the world, around the clock, as long as you're online. What's more, you don't need any special hardware, equipment or training. Protect your business from £5.95 per month¹⁰.

number seven

7 YOU WANT: A cost-effective call solution
YOU NEED: BT Business Broadband Voice
 With BT Business Broadband Voice you get unlimited local and national calls (at no extra cost)³; UK landline to mobile calls (for up to an hour) are capped at 25p; and international calls are capped at competitive rates too⁴. And when you're out of the office you can make great value VoIP calls from any BT Openzone hotspot. Plus, you can take advantage of advanced features such as Call Waiting, Caller Display and BT 1571. Get it from 14.99 per month.

number six

6 YOU WANT: To protect against malicious attacks
YOU NEED: BT Internet Security Pack
 Whenever you go online your business is under threat from viruses, worms, trojans and hackers – which could mean costly downtime, compromised information and a damaged brand. The new Internet Security Pack includes firewall, anti-virus, anti-spyware, anti-phishing, pop-up blocking and URL filtering, all delivered through a single desktop client for ease of use. Everything from emails to external devices are scanned and automatic updates ensure you always have the latest protection in place. And it's only £4.99 (ex VAT) per month per PC⁸ for complete peace of mind.

BT BUSINESS BROADBAND IS GREAT VALUE AND INCLUDES:

-  24/7, 365 days-a-year access to a BT helpdesk
-  Control over internet access
-  Free BT Business Hub (excluding BT Business Broadband Lite)
-  Wi-Fi access for up to 10 PCs through BT Business Hub
-  Free 'virtual' second VoIP line
-  250 Openzone minutes (excluding Business Broadband Lite)
-  Speeds of up to 8Mbps (subject to limited availability)
